

TIRE STEWARDSHIP OF SASKATCHEWAN

Return to Retailer (R2R) - Consumer Program

The R2R program provides consumers an opportunity to contribute to responsible scrap tire stewardship in the province by contributing their scrap tires into the recycle stream. The program allows Saskatchewan residents to drop off a maximum of ten (10) rimless scrap tires, free of charge, during business hours at select tire retailers, even if the tires were not originally purchased at that location.

The select retailers participating in the R2R program will store the scrap tires on site until they are picked up through the normal scrap tire collection operations as managed by the TSS. These scrap tires are collected and then transported to a registered processor for responsible processing and recycling of scrap tires into approved end uses or products.

Please see below for the current participating R2R locations. Residents are urged to contact the retailer in advance if you have any larger tire types to ensure the retailer has the storage capacity to accept and safely handle these tires.
