

TIRE STEWARDSHIP OF SASKATCHEWAN

Return to Retailer (R2R) - Program for Sask Residents

The R2R program provides Saskatchewan residents with an opportunity to participate in responsible scrap tire recycling by placing their scrap tires into the recycle stream through the R2R Program. R2R allows residents to drop off a maximum of ten (10) rimless scrap tires, free of charge, at select tire retailers during business hours, even if the tires were not originally purchased at that location.

The participating retailers will store the scrap tires on site until they are picked up through the normal scrap tire collection operations managed by the TSS. These scrap tires are then transported to a registered processor for responsible processing and recycling into approved end uses or products.

Please see below for the current participating R2R locations. Residents are urged to contact the retailer in advance if you have any large tire types to ensure the retailer has the storage capacity to accept and safely handle these tires.
